Nanjing Shuguang Chemical Group Co.,Ltd.

Titanate SG-TPT

Chemical Name: Titanium(IV) isopropoxide

CAS No.: 546-68-9

Product appearance: Colorless or pale yellowish liquid

Application:

It is applied to esterification, transesterification of the esters of acrylic acid ect. and the polymerization reaction of epoxy resin, bakelite, silicone, polybutadiene, PP、PE and so on.

It is used as crosslinking agent for various polymers or resins in coating and paint to improve adhesive bonding between coating and substrate, to improve dispersion and coloring , and anti-corrosion. It is also used as surface modifier, adhesion promotor, and additive for paraffin and oil.

Packing: Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

Storage: Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
