Titanate Coupling Agent NDZ-401

Chemical Name: Tetraisopropyl di(dioctylphosphate) titanate

CAS No.: 65460-52-8

Product appearance: Colorless to pale yellowish clear liquid

Application:

It is mainly used in fiberglass reinforced unsaturated polyester to improve mechanical strength and aging resistance. Application of NDZ-401 in epoxy paint containing high content of titanium dioxide or clay can reduce dosage of titanium oxide and solvent, increase dosage of clay without changing the viscosity of system, and improve adhesion to glass and metal. NDZ-401 can be used to treat such inorganic fillers as metal powders to improve dispersion and anti-setting.

Packing: Packed with 5L、20L、210L plastic/steel drum or 1000L IBC container, also can be packed according to customer's requirement.

Storage: Seal and store it in a cool, dry and ventilated place, keep moisture-proof and waterproof, far away from kindling material and heat source.
